

Dear Stakeholder

By the time you read this November newsletter, Mrs. Madalina Kramer is acting Head of Stakeholder Relations at SESAR Deployment Manager (SDM). She is now the one steering the external communication and our instruments to continue our golden standard industry-leading consultation and buy-in processes.

With her 18 years of experience in ATM, having covered a wide range of policy topics in Romanian ANSP ROMATSA and working in SDM for almost one year, she has all the skills and energy to keep ANSPs, Airlines and Airports in the driving seat of future evolutions of the Deployment Manager role. I would appreciate for you to support and congratulate her with this new professional step.

Having joined the SDM from day one, it is time for me to follow the wind of change. I will remain in the aviation sector however, becoming Manager Public Affairs at DHL Aviation, operating from Brussels Airport. It was a pleasure working with all operational stakeholders and policy organisations. It was even more rewarding to work FOR all contacts in the ATM industry.

It was an energising challenge to breathe life into this daring policy innovation, putting the industry in the lead of European ATM modernisation. The courageous decision by DG MOVE has proven to be the correct one. With the structural support of INEA, this innovation has proven to be a game changer.

Last but not least, I would like to thank my team for taking on every challenge with energy and wit. Thank you Anna, Federica, Servane, Madalina, Luc, Francis, Carolina, Jakub, Marita, Louise, Tim, Yves, Akos and Cliff.
